Welcome

Welcome to the guide for members of the 2015 NHS Pension Scheme for England and Wales.

From 1 April 2015 there will be two separate pension schemes covering NHS workers. This guide refers to the 2015 NHS Pension Scheme for England and Wales and focuses on those members who belong to this Scheme. This is all workers except those who are allowed to remain in the 1995/2008 Sections of the NHS Pension Scheme due to the ‘Protection’ arrangements outlined below:

• Members of the 1995/2008 Scheme who, as at 1 April 2012, were either already over their Normal Pension Age (NPA) or 10 years or less from their NPA and in active membership on both 1 April 2012 and 31 March 2015 are entitled to Full Protection.

• Members of the 1995/2008 Scheme who, as at 1 April 2012, were more than 10 years, but less than 13 years and 5 months from their NPA and in active membership on both 1 April 2012 and 31 March 2015 are eligible for limited protection. We call this Tapered Protection.

• Those not in active membership of the 1995/2008 Scheme on both 1 April 2012 and 31 March 2015 may still qualify for Protection provided they rejoin the Scheme after a break of less than 5 years.

For more information please visit our website at: www.nhsbsa.nhs.uk/pensions

NHS workers are people who are employed by the NHS as well as medical, dental and ophthalmic practitioners and general medical practice staff. Staff who work for certain employers that have been given Direction Body status by the Secretary of State can also join (Direction Bodies include independent providers, social enterprises, charities and the third sector organisations).

Pension planning requires thought and up to date information to help you make decisions about your future. We hope that you find this guide useful and informative. If you have any feedback about this guide then please contact us using the details on page 30.
How will this guide help you?

By reading this guide you should get a good idea of the benefits that this Scheme provides. It explains the Scheme’s main features and highlights where to get more information if you need it.

More detailed information is available on our website at: www.nhsbsa.nhs.uk/pensions. This includes factsheets that explain specific parts in more detail.

Membership of an NHS Pension Scheme allows you to receive tax relief on your contributions and get a tax free lump sum, within certain limits, when you retire. Please note that pensions in payment are taxed in the same way as income.

There are limits on the amount of pension benefits you can have without incurring additional tax. More information about this can be found on our website at: www.nhsbsa.nhs.uk/pensions.

Many words or phrases used in this booklet have specific meaning. To help you understand them we have included a glossary at the end of this guide.

The small print

This guide is intended to provide you with a general overview of the proposed benefits provided by the 2015 NHS Pension Scheme. We have taken great care to get the details right at the time of publication but it does not give a complete or legally binding statement of the law and regulations which govern this Scheme. Nothing in this guide can override the Regulations (which at date of publication are still at draft stage) that set out the conditions of entitlement and determine the rate at which benefits are payable. In the event of any conflicting information, the Regulations will prevail.

This guide will continue to be updated. You can find the most up to date version on our website at: www.nhsbsa.nhs.uk/pensions. Supporting information and factsheets are being developed and, when available, links to them will be added to this guide.

If you are in any doubt about how your benefits are calculated or what you may be entitled to, please contact your local pension administrator or NHS Pensions.

How does the 2015 NHS Pension Scheme work?

The 2015 Scheme is a Career Average Revalued Earnings (CARE) scheme. This is a form of defined benefit pension scheme, which means you get a guaranteed level of benefit at retirement payable according to a fixed formula. Pension benefits for all members are calculated using the same method and revaluation rate.

In a CARE scheme your pension is based on your pensionable pay throughout your career. The pension you earn each year is based on actual pensionable pay in that Scheme year and is increased by a set rate linked to inflation, known as revaluation, each year up to retirement or leaving. A ‘Scheme year’ runs from 1 April of one year to 31 March of the following year. The final pension payable is calculated by adding together the revalued pensions earned in each year of membership.

How a CARE scheme works

The diagram on the following page illustrates how the NHS Pension CARE scheme works.
CARE - how it works

1. You earn 1/54th of your pensionable pay as pension each year you work.

Annual pensionable pay \times \frac{1}{54} = \text{Build up rate}

Year 1

For example, Tom earns £18,000, so his pension in year 1 is worked out as:

\[ £18,000 \times \frac{1}{54} = £333 \]

2. This is then ‘revalued’ (increased to account for inflation) using an agreed formula until you retire (say 3.5% for the purpose of this illustration).

The £333 that Tom earns in year 1 is revalued at the beginning of the next year. So at the beginning of year 2, this part of Tom’s pension is increased by £333 \times 3.5\% = £12 to give £333 + £12 = £345.

3. The pot continues to be revalued until you retire.

Year 1 After Revaluation

Year 1 retirement pot
Tom’s pot for year 1 is worth £640 after 20 years’ service.

4. You receive a new retirement ‘pot’ for each year you are a member.

5. Add up the pension you earned each year (after it has been revalued) to find your total pension.

Total Pension

Annual pension at retirement
If Tom’s pensionable pay rises by 4% each year, by adding all of the other years’ pension pots together, he could expect a pension of £13,422 a year after 20 years’ service (salary in year 20 = £37,923).

The parameters used here are purely illustrative. For the purposes of illustration it has been assumed that inflation and pay rises are projected at the same levels throughout the 20 year period, but in practice they will change from year to year. The figures quoted in the above illustration have been rounded for the purpose of simplification. Actual calculations would be in pounds and pence if appropriate.
Summary of the main features and benefits

Your pension builds up depending on four factors. These are:

1. **Build up rate**

   The amount of pension you earn each year is determined by what is known as the ‘build up rate’ which is usually shown as a fraction of your pensionable pay.

   In this Scheme the build up rate is 1/54th, so you earn a pension each year of 1/54th of your pensionable pay. For example, if you earn £18,000 in a year you would earn a pension for that year of 1/54th of £18,000, which is £333 (rounded down for illustration purposes only). This is the pension you would build up for that year.

2. **Annual revaluation**

   Your pension earned each year will be increased each year by a rate, known as ‘revaluation’, to account for inflation in the period before you retire or leave.

   In this Scheme the revaluation rate is inflation (currently Consumer Price Index (CPI)) plus 1.5% each year. The pension earned in a Scheme year (April to March) is revalued on 1 April of the following and each subsequent Scheme year until you retire or leave. For example, if inflation in a year was 2% then the pension would be revalued by 3.5% at the beginning of the following year.

   If you leave this Scheme before becoming entitled to claim your retirement benefits, your pension benefits earned would be revalued at retirement by the addition of Pensions Increase.

3. **Length of Scheme membership**

   You can continue to build up pension rights in this Scheme until age 75 with no limit to the number of years’ earnings that can be taken into account. The more years of membership you have then the greater number of annual pensions you will earn leading to a bigger overall pension.

4. **Pensionable earnings**

   This is the amount of your income that represents your actual earnings for NHS work and is used to calculate the contributions you pay and how much pension you earn each year. More information about what counts as pensionable pay can be found in the next section.
What counts as pensionable earnings?

The pensionable earnings of a member are determined by their employment or engagement terms as shown in the table below.

<table>
<thead>
<tr>
<th>Employed by:</th>
<th>Pensionable earnings include:</th>
<th>Pensionable earnings excludes:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• an NHS organisation; or</td>
<td>• salary</td>
<td>• bonuses</td>
</tr>
<tr>

</tr>
<tr>
<td>as set out in the GP providers certificate of pensionable earnings, see the website for further information</td>
</tr>
<tr>
<td>as set out in the General Dental Practitioner’s annual reconciliation report (ARR), see the website for further information</td>
</tr>
</tbody>
</table>

Impact of Salary Sacrifice

Each year of your pensionable pay counts separately towards the build up of your final pension benefits. Therefore entering into or continuing with any salary sacrifice arrangement (e.g. Childcare Vouchers, Lease Car Schemes etc.) that reduces your gross pensionable pay will have a negative effect on the amount of pension you are able to build up in that year. The overall effect from participating in any salary sacrifice scheme would be to reduce the amount of final benefits you build. For more information please read the salary sacrifice factsheet on our website at: www.nhsbsa.nhs.uk/pensions

Annual benefit statements

After the end of each Scheme year (31 March), an annual benefit statement of the pension benefits you have earned will be available for you to view. This will either:

- be part of your Total Reward Statement (TRS) which will also provide you with information about your pay, annual leave and any local benefits offered by your employer; or
- be a stand alone statement covering pension benefits only.

You can access your statement via the TRS portal at: www.totalrewardstatements.nhs.uk/

For more information about the statements please visit the TRS information website at: www.nhsbsa.nhs.uk/TRS
Membership and contributions

Eligibility to join the 2015 NHS Pension Scheme

This Scheme is open to any NHS workers aged between 16 and 75 who are:

- directly employed by the NHS
- medical, dental and ophthalmic practitioners and trainees
- general medical practice staff
- staff working for certain approved employers - Direction Bodies include independent providers, social enterprises, charities and the third sector organisations
- non-General Practitioner Providers
- freelance locum medical practitioners.

You will not be eligible to join if you:

- are aged over 75
- only hold an honorary NHS appointment
- are not a practitioner and are employed through a General Dental Services (GDS) or Personal Dental Services (PDS) contract
- are in receipt of benefits from the 1995 Section of the NHS Pension Scheme
- are eligible under ‘Protection’ arrangements to continue contributing to the 1995/2008 Scheme.

Important

If you have previously been a member of the NHS Pension Scheme in Scotland or Northern Ireland or have had any previous employment which was part of a TUPE transfer to the NHS, you may be able to join the 2008 Section of the previous NHS Pension Scheme. For more information please read our ‘Rejoining the Scheme’ factsheet on our website at: www.nhsbsa.nhs.uk/pensions
Important

Auto enrolment into the NHS Pension Scheme

The NHS Pension Scheme is the default pension scheme for NHS workers to be automatically enrolled in under government efforts to increase levels of personal pension saving in the UK.

Membership of this Scheme is voluntary but if you are eligible you will be automatically enrolled and made a member from the day you start or restart in the NHS, unless you decide to opt out after joining. This excludes freelance locum medical practitioners and those working for most Direction Bodies who need to opt to join the Scheme, unless you decide to opt out after joining.

From your employer’s staging date, re-enrolment date or the date you become an eligible worker your employer may automatically enroll you into this Scheme. If you are not eligible to be automatically enrolled your employer will enroll you into an Alternative Qualifying Pension Scheme.

Before opting out of this Scheme you should carefully compare the relative cost to you and the whole package of benefits provided. For further information please read the Auto Enrolment factsheet on our website at: www.nhsbsa.nhs.uk/pensions

Opting out of this Scheme

You can opt out of this Scheme at any time but you will be automatically re-enrolled by your employer every three years under the auto enrolment process. You can opt out by completing form SD502 which is available to download and print from our website at: www.nhsbsa.nhs.uk/pensions. If you are in NHS employment you may rejoin if you continue to satisfy the eligibility conditions. You may not rejoin if you are absent from work for any reason.

Costs and contributions

The cost of providing the NHS Pension Scheme is shared between Scheme employers and Scheme members.

As a Scheme member you pay a contribution towards your pension based upon your pensionable pay; the more you earn, the higher your contribution rate may be. Scheme employers pay the rest.

There are several rates of member contribution, which are set against nationally agreed full time pay rates. These range from 5 to 14.5%. You can see a table of the rates on our website at: www.nhsbsa.nhs.uk/pensions. If the overall cost of providing the Scheme changes, the amount you and Scheme employers contribute may also change.
Pension contributions are taken from your pay before tax so you receive tax relief on any amount you pay. This can reduce the actual amount that you pay depending on your contribution rate, earnings level and personal rate of tax.

**Increasing pension saving**

You can increase the amount of benefits you receive at retirement by paying extra contributions. These are called Additional Voluntary Contributions or AVCs. There are different ways of doing this and each buys you different benefits.

- **Buying Additional Pension (AP)**

  AP is a flexible way of increasing your NHS Pension. Under this option you choose to buy a set amount of annual pension, which you can pay for either with a lump sum payment or by regular contributions deducted from your pay for an agreed period of time.

  The minimum amount of AP you can buy is £250 and the maximum amount is currently £6,500.

  AP is protected against inflation by being index linked both before and after retirement. You can choose whether your AP is just for you or also provides benefits for your dependants when you die.

- **Money Purchase AVCs**

  You can pay lump sums or regular amounts to one, or more, of the AVC providers selected by the Scheme managers. Contributions are invested in accordance with your wishes to build up a separate retirement fund. When you retire you use this fund to provide an additional pension for you only, or for you and your dependants. You can take some of this fund as a lump sum.

**Further information**

You can find out more about ways to increase your pension saving on our website at: [www.nhsbsa.nhs.uk/pensions](http://www.nhsbsa.nhs.uk/pensions)

- **Early Retirement Reduction Buy Out (ERRBO)**

  Scheme benefits are paid without reduction from your Normal Pension Age (NPA). In this scheme your NPA is the same as your State Pension Age at the point in time you retire or age 65, if later. You, or your employer, can take out a contract to pay extra contributions to buy out the reduction that would otherwise apply if you claimed your benefits up to three years before your NPA (but not before age 65). The amount of additional contributions payable depends on your age and the number of years’ reduction to be bought out.

  For an application to apply from the date of joining it must be received within three months of your joining date. Applications received after this time will apply from the beginning of the next Scheme year. A reduction contract cannot be taken out retrospectively for previous Scheme years. Please read the ERRBO factsheet on our website at: [www.nhsbsa.nhs.uk/pensions](http://www.nhsbsa.nhs.uk/pensions)
Important

Annual Allowance (AA)

There is a maximum amount of pension saving that you can build up in any one year before incurring a tax charge. This is known as the ‘Annual Allowance (AA)’ and includes benefits built up in the NHS Pension Scheme as well as other pension savings. HMRC has stated that the current AA is £40,000. This may be subject to further revision by HMRC. You can get more information about tax charges and your options to pay the pensions savings charge on our website at: www.nhsbsa.nhs.uk/pensions

Important

Lifetime Allowance (LTA)

As this Scheme is registered with HMRC the benefits you build up are subject to maximum limits before additional tax may be charged. These limits mainly affect higher earners. For more information please visit our website at: www.nhsbsa.nhs.uk/pensions
Transferring benefits

You may apply to transfer your previous pension rights into the NHS Pension Scheme if you meet the criteria set by HMRC and we receive your application within 12 months of the date you joined the Scheme.

If you have been a member of another HMRC registered pension scheme you can apply to transfer your pension rights into this Scheme to buy a pensionable earnings credit. This credit will normally be associated with your first Scheme year’s actual pensionable earnings and used to calculate the amount of pension you have built up in that year.

If you are considering a transfer please contact your employer who will advise what action you need to take. You can download a copy of the Transfer In Guide from our website at: www.nhsbsa.nhs.uk/pensions

If you have worked for the NHS in Scotland or Northern Ireland you may be able to transfer those pension rights into the NHS Pension Scheme for England and Wales. The Scheme that the previous rights are transferred into will depend on your last membership status within the NHS Scotland / Northern Ireland Scheme and how long ago you left that Scheme.

Any pension rights transferred in will increase your NHS Pension benefits in accordance with the rules of the appropriate Scheme.

Important

If you have been a member of the NHS Pension Scheme in Scotland or Northern Ireland it is important to note that your benefits will not transfer automatically to this Scheme. You must apply in writing to NHS Pensions for a transfer to be made.
Leaving early

This Scheme provides a number of options for those who leave or opt out before retirement.

The table below explains which options are available to you if you do not intend to return to NHS employment:

<table>
<thead>
<tr>
<th>Option</th>
<th>Less than two years’ membership when you leave*</th>
<th>At least two years’ membership when you leave</th>
</tr>
</thead>
<tbody>
<tr>
<td>Leave your benefits in this Scheme and take a deferred pension</td>
<td>No, unless you have transferred in a personal pension</td>
<td>Yes</td>
</tr>
<tr>
<td>Transfer the value of your benefits to another HMRC registered pension arrangement</td>
<td>Yes, if you are under NPA; and you joined your new pension arrangement within 12 months; and you apply for the transfer within 12 months of joining your new arrangement</td>
<td>Yes, if under NPA but only to another occupational pension scheme that provides defined benefits</td>
</tr>
<tr>
<td>Refund of your contributions, less tax and National Insurance contributions</td>
<td>Yes, if under NPA and you have not transferred a personal pension into the Scheme</td>
<td>No</td>
</tr>
</tbody>
</table>

*If you were a member of the 2008 Section before moving to the 2015 Scheme on 1 April 2015, your 2008 Section membership will be linked to your 2015 Scheme membership to determine whether, in total, you have more than two years’ membership.

Important

If you rejoin the Scheme within five years of leaving, your new period of contributions will link with your previous period and the benefits you built up before leaving will be revalued for each year of the break using the appropriate revaluation rate (please see page 7 for more details). This applies regardless of how long your previous period in the Scheme had been.

Transferring your pension benefits out of this Scheme

If you leave the NHS or leave this Scheme, you may be able to transfer your NHS benefits to another registered pension scheme before you reach your NPA as set out in the table above.

A transfer payment is worked out by converting the value of your pension rights to a current cash equivalent value. This is done using factors supplied by the Scheme actuary in relation to your age at the date of calculation.
**Taking a refund**

Taking a refund of your own contributions is usually the least beneficial outcome for you compared with long term pension provision. This Scheme provides for linking periods of contributions separated by breaks of less than five years, so you may prefer to delay claiming a refund until you have a firmer idea of your future intentions.

If you have less than two years’ membership (including any linking membership in the 1995/2008 Scheme prior to moving to the 2015 Scheme) you may be able to have your own contributions refunded, less Income Tax and National Insurance deductions. You will not be entitled to claim a refund if:

- you are over NPA as you will be entitled to pension benefits
- you are in receipt of a 2008 Section pension but have not reached NPA for the 2015 Scheme. In this case your 2015 pension benefits will be deferred until you reach your NPA or will be reduced if claimed early
- you have transferred in the value of benefits from a personal pension arrangement. In this case your pension benefits will be deferred until you reach your NPA or will be reduced if claimed earlier.

**Further information**

For more information please read the Leaving Early and Transferring Out Guide available on our website at: [www.nhsbsa.nhs.uk/pensions](http://www.nhsbsa.nhs.uk/pensions)
Rejoining this Scheme

Rejoining this Scheme before retirement

If you rejoin this Scheme after a break of less than five years, your previous period of contributions will link with your current period and the pension rights you built up before the break will receive full in-scheme revaluation based on inflation (currently CPI) plus 1.5% for each Scheme year during the break.

If you rejoin this Scheme after a break of five years or more, your previous period of contributions will not link and your benefits for the earlier period will be calculated separately. Your new period of contributions will be revalued based on inflation (currently CPI) plus 1.5%. On retirement the earlier period of benefits will be revalued by the application of Pensions Increase.

Rejoining this Scheme after retirement

Members are eligible to rejoin this Scheme, after drawing their 2015 Scheme pension benefits, up to the maximum age limit of 75, and build a separate pension from that in payment.

If you were previously a member of the 1995/2008 Scheme and have claimed or intend to claim benefits from that Scheme, please read the factsheet ‘Members with benefits in both the 1995/2008 Scheme and the 2015 Scheme’ which will be available on our website from March 2015.
Retirement

Normal Pension Age (NPA)

The Normal Pension Age is the age that you can retire from NHS employment and have your pension paid without reduction for early payment.

In this Scheme, your NPA is the same as your State Pension Age (SPA).

You can calculate your personal State Pension Age by using the calculator available at: www.gov.uk/calculate-state-pension

You may choose to retire from work before your NPA, but on or after your minimum pension age (currently age 55). If you do this your benefits will be reduced because they will be paid earlier and for longer than expected. Further details on this are included in the early retirement part of this guide on page 19.

Taking your benefits

This Scheme offers flexibility around retirement and you can choose to take part or all of your benefits between ages 55 and 75. If you wish to take all of your benefits you must end your contract of employment/for services and not return for 24 hours. A summary of the options open to you are:

Before Normal Pension Age

You may take some (known as ‘drawdown’) or all of your pension benefits after reaching minimum pension age. The benefits will be reduced because they are being taken earlier and for longer. You can continue to build further benefits whilst you continue in or return to NHS employment.

At Normal Pension Age

If you take your pension benefits at NPA, they will be paid in full. You can continue to build up further benefits if you return to NHS employment.

After Normal Pension Age

If you do not take your pension benefits at NPA, you may continue to build benefits as long as you stay in this Scheme, up to age 75. When taking your benefits they will be increased to take account that it is being paid later than your NPA. At age 75 you must claim your benefits.
Benefits at retirement

This part of the guide describes the benefits that you can expect to receive from this Scheme when you choose to retire.

Retirement pension

The total value of the pension benefits built up and revalued whilst you have contributed to this Scheme, as described in this guide, will be payable.

Lump sum (pension commutation)

You may be able to exchange some of your pension for a tax free lump sum within certain limits. You will receive £12 of lump sum for every £1 of pension you give up.

It is possible to take up to a maximum lump sum of 25% of your capital value. The amount of lump sum you can take is governed by a limit set by HMRC and adopted by the Scheme Regulations. It applies across your entire pension arrangements so your NHS retirement lump sum may be limited to a smaller amount if you have other pension savings in payment. You cannot give up pension to provide a lump sum that would cause you to exceed HMRC’s limit.

Allocation

If you are in good health you can choose to allocate (give up) part of your own pension to provide a bigger pension for any dependant when you die. This allocation can be to a spouse, civil partner, qualifying partner, or in certain circumstances, a child. The allocation must be made before you retire and you cannot reverse this decision once it is made. You can find more information in our Retirement Booklet available on our website at: www.nhsbsa.nhs.uk/pensions
Early retirement

Early retirement pension

You may claim payment of your pension before your NPA if you meet all of the following criteria:

- have reached normal minimum pension age (currently age 55) but not yet reached NPA
- have been in the Scheme long enough to qualify for pension benefits (currently two years)
- have ceased all NHS employment.

An early retirement pension is reduced because it is being paid early and for longer. The amount of the reduction depends on how many years before NPA the pension is being claimed and is applied to the pension before commutation (the exchange of some pension for a lump sum).

The Scheme Actuary is currently considering the reduction percentages that will apply and these will be added to this guide and published on our website when finalised.

Important

Where an ERRBO has been bought, the payment of additional contributions will be taken into account before the application of the early retirement reduction. See the ‘Increasing pension saving’ section of this guide on page 11.

Premature retirement

If you are retired prematurely because of redundancy or in the interests of the efficiency of the service, your benefits may be paid immediately. You must have:

- at least two years’ continuous membership
- reached the minimum pension age
- two years’ continuous employment with the employer who is prematurely retiring you
- contractual terms and conditions which entitle you to claim the redundancy pension as an alternative to receiving, either in whole or in part, the cash redundancy payment from your employer.

If you are made redundant after the minimum pension age you may choose to take your redundancy payment and have your pension paid at NPA, or take your pension benefits immediately. Whether your benefits will be unreduced or partially reduced will depend on your contractual terms and conditions.

If you choose to take your pension immediately your employer will use your redundancy payment to meet any additional costs that arise, paying the balance (if any) to you.

Where the amount of the redundancy payment is sufficient to meet the additional costs your benefits will be paid in full.
Where the amount of the redundancy payment is not sufficient to meet the total additional cost of unreduced benefits, your employer will pay any shortfall if your contractual terms and conditions provide for this.

Where your contractual terms and conditions do not provide for your employer to pay any shortfall you will have the option to:

- pay the shortfall yourself and receive all of your benefits unreduced;
- pay part of the shortfall yourself and avoid the early retirement reduction in part; or
- make no top up payment yourself and receive benefits which are in part unreduced and part reduced.

**Retirement in the interests of efficiency**

If you are retiring in the interests of the efficiency of the service your benefits will be paid without reduction and your employer will meet the cost of paying the pension early.

If you have more than one job in the NHS you may either:

- take your benefits in respect of all your pensionable NHS jobs. If you do this, you must leave all your jobs for at least one day unless they total no more than 16 hours per week; or
- take your benefits only in respect of the employment from which you are retiring prematurely.

In either case you can remain in or rejoin this Scheme if you continue or subsequently return to NHS employment.

**Further information**

Further details on premature retirement can be found on our website at: [www.nhsbsa.nhs.uk/pensions](http://www.nhsbsa.nhs.uk/pensions)
The State Pension Scheme and other pension schemes

This Scheme is completely separate from State Pension arrangements or any other pension schemes you may be a member of. This means that you will normally get a separate State Pension as well as your NHS Pension.

If you have arranged your own personal pension, or have pensions from other employment, these are payable as well as your pension from this Scheme but it is up to you to choose when you take these.

Because of pension tax legislation, you may need to tell us about these pension arrangements including any that are already in payment, when you come to retire.

Applying for your benefits

Your pension will usually be paid monthly for the rest of your life. NHS Pension benefits are protected against inflation by being index linked to a measure set by the Government. This means that they may increase each year, in April, for as long as they are being paid. In your first year of retirement a part year increase may apply.

When you are retiring you need to apply for your benefits using a form available from your employer. To ensure that you receive your benefits on time this should be completed at least three months before your intended retirement date.

Claiming deferred pension benefits

A deferred pension is a pension which is not in payment and is not being added to through active scheme membership.

If you have deferred pension benefits in this Scheme, these will usually be paid at your Normal Pension Age provided you are not in NHS employment. To claim these benefits you will need to complete form AW8P which is available to download and print from our website at: www.nhsbsa.nhs.uk/pensions
Ill health retirement

If you have at least two years’ membership and are too ill to work in your present job you may be able to retire early and take your pension benefits. There are two tiers of ill health retirement and the benefits you get will depend on whether or not you are capable of undertaking employment elsewhere, see tables overleaf. The minimum pension age does not apply in the case of ill health retirement. Ill health pensions may be increased each April in line with inflation.

It may be possible to move between the tiers after retirement where our medical advisers indicate your condition may meet Tier 2 requirements within three years of retiring.

If you are terminally ill you may take your benefits immediately as a serious ill health lump sum.

Your benefits may be reduced or withdrawn if you take up further employment after retiring early due to ill health.

You may apply to be considered for ill health early retirement by completing form AW33E which you can get from your employer.

If you are a deferred member and you become too ill to undertake regular employment you may apply to take your pension early without reduction. Your benefits will not be enhanced. Form AW240 to request consideration of entitlement to early payment of deferred benefits due to ill health is available to download from our website at: www.nhsbsa.nhs.uk/pensions. Do not delay completing and returning this form as that may affect the date from which we can pay the benefits.

Further information
Further details about ill health retirement and examples of how it will be calculated can be found in a separate factsheet which will be available on our website at: www.nhsbsa.nhs.uk/pensions

Ill health retirement tiers

<table>
<thead>
<tr>
<th>Tier 1</th>
<th>Definition</th>
<th>Entitlement</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Unable to do current job due to permanent ill health.</td>
<td>Pension already earned paid without reduction.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Tier 2</th>
<th>Definition</th>
<th>Entitlement</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Unable to carry out regular employment of like duration to NHS employment due to permanent ill health.</td>
<td>Tier 1 plus the ‘tier 2 addition’ which is pro rata enhancement based on 1/2 of prospective pension to normal pension age.</td>
</tr>
</tbody>
</table>
Important

Your Tier 2 ill health retirement benefits may be affected by HMRC’s Annual Allowance legislation. If you are accepted for Tier 2 this does not mean you will meet HMRC’s Serious Ill Health Condition; a separate test will be undertaken. You can get more information about this in the Ill Health Retirement factsheet which will be available on our website at: www.nhsbsa.nhs.uk/pensions

Serious ill health lump sum

If you become terminally ill you may take your benefits immediately as a lump sum and they will not be tested against the Annual Allowance limits. To claim a serious ill health lump sum you will need to complete form AW341, available from your employer. Your application will be subject to acceptance by the Scheme’s medical advisors.

If you are age 75 or over the serious ill health lump sum will be subject to a serious ill health lump sum charge of 55%, payable by the member. This tax charge is deducted from the lump sum before payment.

Life assurance and family benefits

This Scheme provides lump sum and pension benefits to your dependants in the event of your death. The benefits payable will depend on your circumstances at the time of your death (these are listed on page 26).
Death benefit nomination

This Scheme allows you to nominate one or more people or one organisation to receive the Life Assurance Lump Sum. A nomination can be made and changed at any time. To make or change a nomination you should complete form DB2. Further information can be found on our website at: www.nhsbsa.nhs.uk/pensions

Any lump sum due will be paid to your spouse, registered civil partner or qualifying nominated partner. If you do not want this to happen you should contact NHS Pensions to nominate someone else to receive the benefit. A form to nominate who you want to receive this benefit can be downloaded from our website at: www.nhsbsa.nhs.uk/pensions. Please note that the lump sum may be subject to inheritance tax if it is not paid to your spouse, or civil partner. A lump sum payment to a qualifying nominated partner may also be subject to inheritance tax.

If you have not nominated a person to receive a lump sum and you do not have a spouse, registered civil partner or qualifying nominated partner the lump sum will be paid to your personal representative.

Important

The lump sum must be claimed and paid within two years of the member’s death being notified to us. After two years the lump sum will become an unauthorised payment which is not permitted under this Scheme.

If you die after reaching age 75 the lump sum is subject to a special lump sum death benefit charge of 55%. This tax charge is deducted from the lump sum before payment.

Payment of dependants’ pensions

These are payable for life to your legal spouse, registered civil partner or qualifying nominated partner from the date of your death. If you are not in a legally recognised relationship, you and your partner are required to complete a form to register your relationship. There are criteria that must be met for your nominated partner to qualify for benefits and these will be checked in the event of your death. A PN1 form to nominate a non legal partner can be downloaded from our website at: www.nhsbsa.nhs.uk/pensions
Important

It is important that you keep your nominations up to date to ensure that your benefits are paid as swiftly as possible to who you want to receive them. Forms are available on our website for you to nominate who you wish to receive any lump sum and also to register your partner for a pension at: www.nhsbsa.nhs.uk/pensions

Children’s pensions

Children’s pensions are paid until the age of 23. If the child remains unable to earn a living due to a condition which existed both at your retirement and at the date of your death, the children’s pension can be paid indefinitely.
## Benefits payable

The following tables show the benefits that are payable from the 2015 Scheme.

<table>
<thead>
<tr>
<th>Benefit</th>
<th>Death in pensionable service</th>
<th>Death of a pensioner member*</th>
<th>Death with deferred pension</th>
<th>Death of a recent leaver with less than 2 years’ qualifying service**</th>
</tr>
</thead>
</table>
| **Lump sum** | **The higher of:**  
2 x the relevant earnings in the last 12 months of pensionable service  
**or**  
2 x the revalued pensionable earnings for the Scheme year, up to 10 years earlier, with the highest revalued pensionable earnings | **The lesser of:**  
5 x annual pension amount less pension already paid;  
**or**  
2 x the lump sum payable had they been an active member on the date of death less any retirement lump sum (commutation) already taken | 2.025 x the annual pension the member would have received had they retired on the date of death | 2.025 x the annual pension the member would have received had they retired on the date of death |
| **Adult survivor pension**  
(Must have at least 2 years’ membership unless stated otherwise) | **Either:**  
33.75% of the †notional tier 2 Ill Health pension if under NPA at date of death  
**or**  
33.75% of the †notional age pension if over NPA at date of death  
Short term pension equal to the rate of pensionable earnings*** for 6 months | 33.75% of the pension in payment  
Short term pension equal to the rate of pension paid for the first 3 months or 6 months if there is at least one dependant child | **Either:**  
33.75% of the †notional tier 2 Ill Health pension if date of death within 12 months of leaving  
**or**  
33.75% of the †notional Age pension if date of death more than 12 months after leaving | Pension equal to the member’s GMP unless a CEP has been paid in which case no pension is payable.  
No short term pension |

---

* Pension equal to the member’s GMP unless a CEP has been paid in which case no pension is payable.  
No short term pension

---

*** Pension equal to the member’s GMP unless a CEP has been paid in which case no pension is payable.  
No short term pension
<table>
<thead>
<tr>
<th>Children’s pension **** (Must have at least 2 years membership unless stated otherwise)</th>
<th>16.875% of the †notional tier 2 Ill Health pension</th>
<th>33.75% shared equally if two or more children</th>
<th>Short term pension equal to the rate of pensionable earnings**** for the first 3 or 6 months</th>
<th>Either: 16.875% of the †notional tier 2 Ill Health pension if date of death within 12 months of leaving. 33.75% shared equally if there are two or more children or 16.875% of the Age pension where date of death is more than 12 months after leaving. 33.75% shared equally if there are two or more children</th>
<th>16.875% of the †notional tier 2 Ill Health pension</th>
<th>33.75% shared equally if two or more children</th>
<th>No short term pension</th>
</tr>
</thead>
</table>

* not including re-employed pensioner and partial retirement pensioner members

**a member who dies within 12 months of leaving this Scheme who did not build up enough pensionable service to qualify for pension benefits

*** if the member was in a practitioner or non-GP provider employment, it is the rate of pensionable earnings during the last complete quarter before the member’s death

****higher rates may be payable if there is no adult survivor pension payable

† a ‘notional’ pension is the amount that would have been payable as at the member’s date of death.

If you bought an additional pension with dependants cover there will be:

- an additional adult survivor pension of 37.5% of the amount of additional pension
- an additional children’s pension of 18.75%, or 37.5% shared equally if two or more children, of the amount of additional pension.
Bank staff and freelance GP locums

A bank nurse or a freelance GP locum is regarded as being in pensionable service if they are at work and paying into the Scheme. For example, if they are contracted to work 9am – 5pm Monday to Wednesday they are covered for ‘death in service’ benefits from 9am Monday until 5pm Wednesday. If they die on the Thursday, regardless of whether they were due to return to work the following Monday, they are not regarded as being in pensionable service and are not eligible for ‘death in service’ benefits.

A bank nurse or freelance GP locum who is available for work, by virtue of being on an employer’s ‘list’ or ‘bank’ but who is not actually at work, is not covered for ‘in pensionable service’ benefits.

Further information
Further details can be found in the ‘Life assurance and family benefits’ factsheet available on our website at: www.nhsbsa.nhs.uk/pensions
Help and general information

NHS Pensions – our commitment to you

NHS Pensions aims to provide a prompt, efficient and helpful service to all members of the NHS Pension Scheme.

The NHS Pension Scheme currently has 1.35 million actively contributing members and 650,000 members with deferred benefits. We pay pensions to 800,000 pensioners every month.

We aim to:

• pay pensions accurately and on time
• treat you as an individual with dignity and respect
• listen to what you say
• be fair, helpful and easy to talk to
• give clear reasoning and explanation when necessary
• keep what you say to us confidential
• tell you exactly what you need to do and what information we need.

Tell us how we are doing

Please tell us what we have done well or when we could have done better. We will use this information to make improvements to our service. You can do this by contacting us by telephone, letter or by emailing us through our website. See page 30 for our contact details.

We are happy to receive feedback on any matter.

Our service standards

You will find our ‘Members Charter’ on our website at: www.nhsbsa.nhs.uk/pensions. In the Charter you will find a list of our standards for the different types of service we provide.

When you contact us, please help us by:

• giving your surname, initials and Pension Scheme Membership (SD) Number or National Insurance number
• giving us full and accurate information when we request it
• treating our staff courteously
• informing us if you change your address.
Contact details

You can contact us at:

NHS Pensions
Hesketh House
200-220 Broadway
Fleetwood
Lancashire
FY7 8LG

Telephone: 0300 330 1346 or email us via our website at: www.nhsbsa.nhs.uk/pensions

The switchboard is open from 8.00am to 6.00pm Monday to Friday, excluding public holidays.

If you have a NHS Pension Scheme membership number (it begins with ‘SD’) it will help if you can provide it. If you do not have a membership number please quote your National Insurance number.

‘Ask Us’, our online knowledge base, can answer your questions about the NHS Pension Scheme 24 hours a day. Please visit the NHS Pensions website and click on the ‘Ask Us’ button.

Below are the contact details for persons or organisations you may wish to get in touch with.

Complaints and disputes

What to do if things go wrong

We make every effort to get things right. If we have made a mistake we will apologise and make sure you receive your correct benefits and entitlements as quickly as possible. If we cannot resolve your complaint informally, we have a formal dispute resolution procedure that complies with pension legislation.

How do I complain?

Anyone who receives (or expects to receive) benefits, would like to join this Scheme, or is nominated by the above to represent them can make a complaint to us. If you need to complain please write to us at the address at the beginning of this section. Alternatively, please email nhsbsa.pensionscomplaints@nhs.net

If you have made a complaint that we have been unable to resolve, you can ask for your case to be considered under our formal dispute resolution procedure which is set out below.

What is the dispute resolution procedure?

The dispute resolution procedure is a formal two stage process, the first of which asks you to complete Stage 1 application form DRP1 that you can download from our website at: www.nhsbsa.nhs.uk/pensions

Your case will be reviewed by a disputes officer and we will respond within two months. If we are unable to give you a decision within that timescale, we will write and tell you why.

If you remain dissatisfied you are entitled to have your case looked at a second time. Your case will then be reviewed by a disputes manager and we will let you know the outcome within two months. If we are unable to give you a decision within that timescale we will write and tell you why.

Where you can get further advice

You can get advice from The Pension Advisory Service (TPAS) at any time. You can also ask the Pensions Ombudsman to investigate and give a decision on any complaint or dispute. The address for both of these can be found in this section.

Please note that the Pensions Ombudsman will normally expect any complaint to have been looked at under our Dispute Resolution procedure first before they will consider it.

The Pensions Regulator oversees pension scheme administration and can grant certain time limit extensions and deal with complaints about non-disclosure of information. Their address can also be found in this section.
Some general points

Scheme rules

The rules of the NHS Pension Scheme are laid down in regulations agreed by Parliament. They are the National Health Service Pension Scheme Regulations 2015.

This Scheme is ‘registered’ under the Finance Act 2004.

This Scheme is contracted out of the State Second Pension Scheme (S2P) under the Pensions Act 1995.

Scheme administrator

The scheme administrator is the NHS Business Services Authority, a Special Health Authority. You can contact the scheme administrator via NHS Pensions using the contact details on page 30 of this guide.

Pension Scheme fund

The NHS Pension Scheme does not have a real pension fund, but as a statutory scheme, benefits are fully guaranteed by the Government.

Contributions from both members and employers are paid to the Exchequer, which meets the cost of Scheme benefits.
Independent financial advice

If you are in any doubt which pension arrangements will be the best for you, you should seek financial advice.

Under the Financial Services and Markets Act of 2000, all financial advisers have to decide whether to be ‘independent’, ‘tied’ or ‘multi-tied’.

A financial adviser who is ‘independent’ can offer a range of financial services and products from across the entire market, whereas a financial adviser who is ‘tied’ or ‘multi-tied’ can only offer the products from one or a series of companies.

Before you ask for advice, make sure you know which type of adviser you are dealing with. Most financial advisers will charge for their advice.

The charge may be in the form of a fee payable by you or a commission payable by any company that you decide to invest in. If the adviser you choose charges on a commission basis, you should ask how your investments will be affected by the charges.

Your employer may be able to help you find a source of independent financial advice or you can use the contacts below to obtain a list of local companies.

IFA Promotions Limited - www.unbiased.co.uk

The Personal Finance Society - www.findanadviser.org

It is advisable to check that any company you choose is authorised with the:

Financial Conduct Authority
25 The North Colonnade
Canary Wharf
London
E14 5HS

Telephone: 0800 111 6768 or visit their website: www.fca.org.uk
Data protection

NHS Pensions is part of the NHS Business Services Authority (NHSBSA). The Data Controller for the purposes of the Data Protection Act 1998 (DPA) is the NHSBSA.

NHS Pensions holds information provided by your employer for NHS Pension Scheme purposes and in relation to the NHS Injury Benefit Scheme and certain other statutory functions assigned by Parliament. The information we hold may be used for any of the functions of NHS Pensions. We may need to obtain information about you from other sources. If we do, it will only be as the law allows, for instance to:

• check accuracy of information
• prevent or detect crime
• protect public funds.

We may check information we receive about you with what is already in our records. This may include information provided by you as well as by others such as other government departments, agencies and overseas authorities. We will not give information about you to anyone outside of NHS Pensions unless the law allows us to do so, or you have given us permission to do so.

NHS Pensions has a legal duty to protect the confidentiality of information about NHS Pension Scheme members. We take appropriate precautions to protect any information you give us, whether by our website or by other means because of legislation such as the DPA.

You have the right to ask for details of any data which NHS Pensions holds about you. If you wish to do this you can write to the Information Governance Manager at the address shown later in this section or email nhsbsa.dataprotection@nhs.net. Your letter should include:

• your name and address
• your National Insurance number
• your NHS Pension Scheme membership (SD) number.

If information held about you has been provided to NHS Pensions by another body or person, NHS Pensions may require their permission for its contents to be disclosed to you.
Freedom of information

The Freedom of Information Act 2000 (FOIA) came into force on 1 January 2005. Under the Freedom of Information Act 2000, you may request information from a public authority such as the NHSBSA, of which NHS Pensions is a part. This Act confers two statutory rights on applicants:

• To be told whether or not the public authority holds that information; and if so,
• To have that information communicated to them.

Who can request information?
Anyone can request information under the FOIA regardless of age, nationality or location. You should make any requests to the Information Governance Manager at the address shown later in this section.

What information will be available?
Any information held by a public authority is eligible for release. However, a number of exemptions may be applied to protect information.

Freedom of Information Act
The FOIA requires publicly funded organisations, such as government, schools, hospitals, etc. to have a Guide to its Information, to put in place systems for effective records management, and respond to requests from the public for information. The FOIA recognises the need to maintain government confidentiality in some circumstances and therefore includes exemptions.

Further details about the Act and its implementation can be found on the Information Commissioner’s website. The NHSBSA’s Guide to our Information is available on the website at: http://www.nhsbsa.nhs.uk/FreedomOfInformation.aspx

Information governance

The address for Freedom of Information and Data Protection enquiries about NHS Pensions is:

Information Governance Manager
NHS Business Services Authority
Stella House
Goldcrest Way
Newburn Riverside
Newcastle upon Tyne
NE15 8NY

Or email: nhsbsa.foirequests@nhs.net

Alternatively you can visit our website at: www.nhsbsa.nhs.uk
Glossary of common terms

Additional Pension (AP)
An extra amount of annual pension that you (or your employer) have purchased by paying extra contributions.

Additional Voluntary Contributions (AVCs)
Extra contributions that you decide to pay to increase your benefits.

Capital value
This is the value placed on your NHS Pension Scheme benefits by HMRC and is calculated by multiplying the pension payable by 20 and adding any lump sum to be paid.

Consumer Price Index (CPI)
One measure of inflation based on changes to consumer prices in the United Kingdom.

Contributions
As a Scheme member you pay a contribution toward your pension based on your pensionable pay: the more you earn, the higher your contribution rate may be. Scheme employers pay the rest.

Deferred benefits
A deferred pension is a pension which is not in payment and is not being added to through active scheme membership.

Deferred members
Members who have left the Scheme but have not yet taken their pension.

Dependant
A spouse, civil partner, nominated qualifying partner or dependent child who qualifies to receive a pension after you die.

Early Retirement Reduction Buy Out (ERRBO)
You or your employer can pay extra contributions so you can take your 2015 Scheme benefits unreduced before you reach your NPA.

Maximum lump sum
The maximum cash you can take from your pension benefits when you retire. HMRC determine this as being the lower of:
• 25% of the available lifetime allowance
• 25% of the capital value of your benefits to be paid.

Pensionable earnings
The amount of your pay that is used to calculate the amount of contributions you pay and the amount of pension you build up in each year.

Pensions Increase
Used to maintain the value of your pension against rises in the cost of living. The current measure is determined by changes in the Consumer Price Index (CPI).
Personal pension
An alternative type of pension savings plan.

Revaluation
A formula based on inflation (currently CPI) plus 1.5% by which the value of each year’s pension is increased.

Regulations
The legal framework that sets out the rules of the Scheme.

Salary sacrifice
An arrangement with your employer to provide benefits such as childcare vouchers, a lease car etc. in return for giving up some pay before tax, National Insurance and pension scheme contributions.

Scheme
In this guide, Scheme refers to the 2015 NHS Pension Scheme.

State Pension
A pension paid by the Government when you reach state pension age based on your National Insurance record.
Notes

Please use these pages to note down information about your NHS Pension. You may wish to keep a record of any contact you have with NHS Pensions.
